

MOLINEUX TESTIFIES.

Accused Man Takes Witness Stand as Chief Witness of the Defense.

DENIES ALL KNOWLEDGE OF CRIME.

Former Governor Black Takes But Five Minutes to Make His Statement to the Jury.

New York, Oct. 31.—The defense opened in the trial of Roland B. Molineux, charged with the murder of Mrs. Katherine J. Adams, with former Governor Frank S. Black announcing that the first witness for the defense would be the accused man. This marked a departure from the course of Molineux's lawyers at the first trial when the defense offered no evidence at all. The crowd was probably the largest ever seen there. As soon as the jury was polled former Governor Black began his opening address. He spoke for less than five minutes. He declared the accused man innocent of any connection with the crime and promised to show to the satisfaction of the jury that Molineux never wrote any of the incriminating letters, or the address on the poison package. When he finished he called out: "Roland B. Molineux take the witness chair."

Replying to the first question of his lawyer, Molineux gave his age as 35 years, told the date of his arrest and the length of time he was in the toms and in Sing Sing prison. He said he took a course in chemistry in Cooper Union after he left school. When he was 16 years old he went to Utah and Mexico. He was correspondent in a divorce suit and it was thought better he should leave the city for a while. He returned to New York a year later and got employment in his father's firm, Devoe, Reynolds & Co., paints and colors. He continued with that firm until he went to Newark as the superintendent of the color factory of Morris Herman & Co. He was a member of the Knickerbocker Athletic club for two years, resigning in 1897 when he went to the New York Athletic club. He was a member of the governing board of the Knickerbocker Athletic club.

Molineux said he did not approve of Cornish's management of the baths or of the gymnasium, and he made a formal complaint. "Did you speak to Cornish about your feelings?" asked Mr. Black. "He knew I had practically said that if he did not get out of the club I would," replied Molineux. "Had you any feelings of bitter animosity toward him when you left the club?" "I was very angry."

Mr. Black then produced the letter written to Dr. Burns applying for a certain patent medicine and enclosing 25 cents in payment. This letter was written on the blue interlaced crescent paper. "Do you recognize this letter?" he was asked. "I do. I wrote it," Molineux replied. "It is signed with my name." "Tell the jury why you wrote that letter." "I hurt my groin exercising and saw the advertisement of the salve and wrote for it." Two of the disputed writings, letters also asking for patent medicines, and signed "H. Cornish," are written on similar paper, and are among the writings Molineux said he never wrote or saw. Replying to questions, Molineux said he could not tell where he wrote the Burns letter, adding that it might have been done in any hotel or restaurant. He did not know where he obtained the paper.

Replying to Mr. Black, Molineux said he first knew he was suspected of the death of Mrs. Adams on Jan. 2, 1899, when a reporter told him the police were looking for him. He gave the police his address and telephone call, and promised to obey any messages sent to him. When detectives called upon him he told them to make any searches they wanted to make. There was some further questions along this line, Molineux replying directly to each, and his counsel then said:

"Now, Molineux, I ask you again, do you know anything of this crime?" "Absolutely nothing." "Did you buy a bottle holder?" asked Mr. Black. "No," replied Molineux. "Did you ever see it?" "No." "Did you mail the poison package?" asked Mr. Black. "No, sir." "When did you first see the address on the package?" "I think at the last trial. I have never had it in my hands." The question of counsel were then directed to the material used in color mixing. Molineux said that cyanide of mercury had never been used by him. Mr. Black showed Molineux the Barnett and Cornish letters and the poison package wrapper, and asked, "Did you write that address?" "I did not." "Did you ever see it before?" "Not before this trial was begun." Molineux said he had

never use bromo seltzer and never bought any. The poison bottle was shown and Molineux said it was the first time he had seen it.

The cross-examination by District Attorney Osborne failed to bring out any startling testimony or damaging evidence against the accused.

LOSING THEIR REASON.

Doukhobors Are Starving and Government Officials Cannot Assist Them.

Yorktown, N. W. T., Oct. 31.—Colonization Agent Speers made the following statement concerning the Doukhobor situation: "I think it is beyond power or reason to parley with the Doukhobors any longer. Exhaustion, hunger and sleeplessness has rendered their condition such that they can no longer be reasoned with. I have worked night and day with the misguided people and must confess defeat so far as inducing them to return to their homes is concerned. One thing is certain, the Doukhobors must be taken care of. It is impossible to predict the outcome. It seems to me that force now is necessary. If disaster is to be prevented the frenzied Russians must at once be induced to abandon their mad march. I can suggest no method to bring this about."

Two of the women are now hopeless lunatics. The men sleep in ditches and on railway tracks and trains had to run with care in the district where the Doukhobors are on the march.

ASLEEP ON THE TRACK.

Two Runaway Boys Meet With Fatal Injuries—One Is Dead.

Lafayette, Ind., Oct. 31.—Daniel Neal and Stanley Buford were instantly killed and William Rousch was fatally injured by a Big Four freight train while asleep beside the track near here. They were runaway boys from Watseka, Ills. They had tired of school and left their homes three days ago. They were weary and fell asleep while sitting on the track. The members of the train crew after the train stopped found the mangled bodies between the rails. The head of one boy was completely severed.

President Takes a Trip.

Washington, Oct. 31.—President Roosevelt, accompanied by Secretary Root, Secretary Cortelyou and Surgeon General P. N. Rixey of the navy, left here on a special train over the Southern railway for Manassas, Va. It is the desire of the president in taking the trip to get a day or two of recreation. It is said that his purpose is to spend some time Saturday and Sunday in looking over some of the Virginia battlefields in the vicinity of Manassas. The "outing," as it was described at the White House, will be "just such a little journey as any American citizen might take" for relief from business cares. The party officially will be limited to those mentioned, with the addition of a stenographer, two or three secret service officers and some servants. It was the intention of the president and his party to make their headquarters on the special train.

Return From Philippines.

San Francisco, Oct. 31.—The transport Sheridan arrived here 25 days from Manila via Nagasaki. She has on board 1,011 soldiers including six troops of the Ninth cavalry, consisting of 520 men, 285 casualties, 134 sick, 8 prisoners and 5 insane men. She also brought the bodies of 17 dead soldiers. There are 95 cabin passengers, including a number of officers returning to their homes. The transport Sumner with General Chaffee on board left Nagasaki four days ahead of the Sheridan, but on account of stopping at Honolulu, is not expected to arrive here until next week.

Large Bequest For Indiana Home.

New York, Oct. 31.—A second large bequest made in less than a year to the Rathbone memorial home for aged and infirm persons, at Evansville, Ind., has been disclosed through the filing for probate in the surrogate's office of the will of Mrs. Kate Rathbone, widow of George W. Rathbone, who died on Oct. 3 at Clifton Springs. It is expected the home will receive \$50,000 from the estate. Mrs. Rathbone was a sister-in-law of Miss Caroline S. Rathbone, who died at Clifton Springs on Dec. 19 last leaving \$75,000 to the home.

Mitchell in Conference.

Wilkesbarre, Pa., Oct. 31.—Pres. Mitchell has returned from Scranton. He said his visit had no significance. The chief officer of the miners' union and his attorneys were in conference the greater part of the day. Mr. Mitchell proposes to have everything in readiness for the presentation of the investigation when called upon. Before the various companies dispersed for their homes a street parade of the entire regiment was given.

Detroit, Oct. 31.—The plant of the Ray Chemical company was destroyed by fire. The loss is estimated at \$75,000, covered by insurance.

VOLCANIC ERUPTION.

Ashes From Volcanoes Cover the Earth to the Depth of One Foot.

DISTURBANCES CAUSE EXCITEMENT.

Old Craters Emit Fire and Smoke and Inhabitants Are Greatly Alarmed and Fly For Safety.

San Francisco, Oct. 31.—Felipe Galicia, consul at San Francisco for Bolivia and Guatemala, has received from the president of Guatemala the following telegram relating to the eruption at Santa Maria: "It is true the volcano is in eruption but without any damage." A message from the superintendent of the Ocos railroad states that the volcano has been in continuous eruption since Oct. 24, and ashes to the depth of 12 inches have fallen at the terminus of the line. News from points further inland is anxiously awaited.

Officers of the Pacific steamer Colon, which has arrived here, state that when the vessel was lying in the port of Acajutlan, Salvador on the morning of Oct. 26 there was a sudden and violent eruption of the volcano of Isalco, 20 miles in the interior of Salvador, and great excitement was occasioned among the poor classes. From the city and port a great cloud of black smoke was seen to shoot up to a great height for Isalco's rock, whence neither smoke nor fire had come for five or six months. The natives when they saw the eruption anticipated earthquakes and tidal waves, but within an hour the big black cap on Isalco had drifted away and the violence was again apparently quiet.

DOUBLE TRAGEDY.

Father and His Son-in-Law Are Shot and Killed in Daughter's Room.

Dayton, Tenn., Oct. 31.—A tragedy which occurred here resulted in the killing of N. J. Cooley and his son-in-law, Will Whitfield by Manuel Thurman, a saloonkeeper. Whitfield was shot three times and died immediately. Cooley lingered until 6 o'clock and made a dying statement to the effect that Cooley and Whitfield were at Cooley's home, when Thurman entered a room occupied by Cooley's daughter. Whitfield heard a noise and entered the room, when Thurman grappled with him. Cooley then entered and Thurman opened fire, with the result as stated. Thurman surrendered.

Reverses Other Courts.

Des Moines, Ia., Oct. 31.—The Iowa supreme court has reversed the two trial courts in Iowa on the question of the C. O. D. liquor sales by express companies. In both instances the express companies had liquors which they were transferring to purchasers in exchange for C. O. D. payments. Seizures were made and the cases tried in the district court, where the express companies won. Both cases were appealed and both are now reversed. The holding of the court prevents express companies from handling liquor C. O. D. and makes such goods contraband and liable to seizure if found in the possession of the companies. The court holds that the privileges of original packages or of the freedom of interstate commerce does not apply to a business of this character.

Salute Was Returned.

Washington, Oct. 31.—The following cablegram was received at the navy department from Admiral Casey: "Panama, Oct. 30.—Three cars of ammunition came over, the balance remains at Colon, will come later. My relations with General Perdomo are most friendly. Bogota saluted my flag on arrival. Salute was returned gun for gun." This statement seems to dispose of the report that the admiral adopted a course towards the Bogota which aroused the resentment of the local government officials.

Must Use Hard Coal.

New York, Oct. 31.—Mayor Low has issued an order calling upon the board of health to enforce after Nov. 15 the ordinance forbidding the use of soft coal in this city. He also issued a proclamation saying that in view of the increase in the supply of hard coal and the fall in the price, there is no reason why the ordinance shall not be enforced again. For domestic size of anthracite the price of \$7.50 a ton is still maintained by the retailers.

Ironton, O., Oct. 31.—Philip Nagle is held here by the police for the murder of William Wade at Upper Sandusky recently. It is claimed that two \$20 gold pieces, found on Nagle, came from the funds that Wade had when the latter was killed. Nagle will be taken to Upper Sandusky.

Mrs. Eliza J. Pepper, aged eighty-six years, died at the home of her son, Mr. George K. Pepper, near Paris, Thursday. The burial took place in the Paris Cemetery Friday afternoon. Three sons and one daughter survive.—Mrs. Green McDonald, of Wilson Bottom; H. C. Pepper, of Germantown; C. Pepper and George Pepper, of Bourbon County.

A Faraway View.

London, Oct. 31.—A dispatch from Vienna says: "According to an interesting communication from Rio Janeiro, published in the Politische Correspondenz, the visit paid by the Chilean naval squadron in Brazilian waters in August assumed the almost unmistakable character of a demonstration in favor of a coalition of the South American states against any desire on the part of the United States to exercise tutelage over them or interfere in their affairs. The occasion was the removal to Chile of the remains of three Chilean ministers who had died at Rio Janeiro during the year."

FIX DATE OF PAYMENT

Mining Wage Scale Which Commission Recommends Commences at Once.

OLDER MINES ARE BEING INSPECTED.

Arbiters Will Not Be Delayed With Arguments of Great Extent. Some Questions Determined.

Scranton, Pa., Oct. 31.—The anthracite strike commission has officially decided that if any change is made in the rate of wages of the men, it shall date from Nov. 1. This announcement was made by the commission through Recorder Wright in the following brief statement: "Voted unanimously that if the commission at the conclusion of its hearings and deliberations, make any award affecting existing rates of wages, such award shall take effect from Nov. 1, 1902."

The recorder of the commission stated that this resolution was adopted by the commission because it was felt important to make its investigations deliberately, and that it might be well in order to relieve from pressure from any source which might cause undue haste, to inform the operators and the miners that should the investigation and the deliberations following it warrant any change whatever, either in the way of increase or reduction of wages, such change should be from a certain date thus enabling all parties to facilitate their calculations. The action of the commission in taking this step at this time will save the commissioners a lot of time. It is known that each side to the controversy would take a determined stand on the question of when the new rate of wages, if one is made, shall go into effect. The operators in their original proposition to President Roosevelt wanted the commission to fix the date. The miners wanted the prospective new rate to be retroactive and go into effect on the day when the miners return to work, which was on Oct. 23.

The commission's party drove to the Manville mine. After donning suitable clothing the party proceeded underground. Accompanying the commissioners were Assistant Recorders Mosely and Neill, General Superintendent Rose of the Delaware and Hudson and General Superintendent Phillips of the Delaware, Lackawanna and Western, which companies operate the Manville colliery on alternate months, district president Nicholls of the United Mine Workers, P. W. Tolian, president of the Manville local of the United Mine Workers; William Watkins, foreman of the mine. Commissioner Wright did not go into the mine, but returned to the hotel to look after correspondence. The Manville shaft is 400 feet deep. The condition worst in the Scranton region, the at this colliery is claimed to be the veins averaging less than three feet in thickness. The mine has been in operation 22 years and is built in the old style, that is, the breaker is directly over the shaft instead of being 200 feet away for the mouth of the opening, as the law now requires.

The commissioners inspected three breasts and were in the mine two hours and a half. The first breast was 2,200 feet from the foot of the shaft and the commissioners had to walk along in a stooping position owing to the low roof. It was extremely tiresome for those unaccustomed to the mine. At the face of the breast a miner and his helper were found. Some of the commission plied the two men with all sorts of questions. The miner said he was able to get out four or five cars a day; told how much he made, and gave other information to the commissioners. Judge Gray was so fatigued by walking in a bent over position for an hour, that he decided to go to the surface. He was hoisted to the top with Bishop Spaulding.

General Wilson was the most aggressive of the commissioners in seeking information. He did not appear to mind the physical discomfort and went wherever he was asked. He asked many questions of both the company officials and of the miners and their representative and usually got answers to questions from both sides that were at variance with each other. Commissioners Clark and Parker also plied the miners with many questions.

Back at the White House.

Washington, Oct. 31.—After breakfasting at the White House President Roosevelt informally received 191 of the mechanics and laborers who have been engaged upon the repairs of the mansion. He thanked them as a body for having facilitated the work for the completion of repairs to the mansion, thereby enabling him to once more occupy it.

The Atlanta Journal is reminded that: "The revision of the tariff by its friend" is akin to amending the burglary laws by a convention of the craft."

A THOUSAND majority in Mason County for Kehoe next Tuesday would be about the proper thing, in view of all he has done for the city and county.

EVERY Democrat in the district should constitute himself a rallying committee, and use all honorable means to secure every vote possible for Kehoe and Paynter.

The friends of Congressman Kehoe should not be deluded by the political liars and scoundrels who are using their utmost endeavors to defeat him for re-election.

A CROSS in the circle under the rooster votes the straight Democratic ticket. A word to the wise is sufficient. All good Democrats know their duty in this particular and should not fail to perform it next Tuesday.

THE next House of Representatives will likely be Democratic, and if the good people of the Ninth Congressional district will re-elect Hon. James N. Kehoe they will have the pleasure of seeing their Representative ranking among the leaders.

HON. JAMES N. KEHOE has worked in this campaign as only a political wheel-horse can work. Democrats, "it's up to you." What will you do next Tuesday? If every Democrat does his duty Paynter and Kehoe will be re-elected by handsome majorities.

It is not necessary for the BULLETIN to tell the people of Mason County anything of the character of Hon. James N. Kehoe. Every one knows him to be an honorable, honest, moral man, whose word is his bond. He is charitable to a fault, broadminded and liberal in his dealings with his fellowmen, and as patriotic a citizen as there is in the State.

HON. J. N. KEHOE has made such a splendid record and accomplished so much for his district it would be a stigma upon the Democrats of the Ninth district to permit the Republican weakling to be elected to succeed him in Congress. Vote and see that your Democratic neighbors go to the polls.—Cynthiana Times.

The people of Maysville and Mason County should give substantial expression next Tuesday of their appreciation of what Mr. Kehoe has done for the city and county. Let his vote be a record-breaker.

POLITICS is a mighty mean business. There seems to be nothing too low or disreputable for partisans to stoop to in order to carry their ends. One of the most despicable tricks, most commonly resorted to, is to seek to arouse prejudice against a candidate because of his religious belief. This dirty work is being done in this very campaign.—Fortsomth Times.

The Maysville Public Ledger, the Vanceburg Sun and the Cynthiana Log-Cabin are the only Republican papers in this district that have been guilty of this dirty and disreputable work. They can get an idea from the above as to what is thought of their despicable campaign methods.

AN EPOCHAL GATHERING.

The Ohio River Improvement Association will have representatives at the Parkersburg convention on Nov. 11th and 12th from every important town upon the river. The Board of Trade at Louisville has just appointed a delegation composed of prominent citizens and is bringing to bear every influence to insure the success of the proposed meeting. The situation is big with the fate of the Middle West. No convention that was ever called in the Ohio valley had more important objects, or gave promise of greater results. Expend sixty millions of dollars upon this noble river and it will float the commerce of an inland sea, and bring a golden tide of prosperity to all the States of the West.

The place of meeting is well chosen. The city of Parkersburg, seated at the junction of two rivers, and resting upon beds of undeveloped wealth, is alive and humming with the great industries created by the capital and enterprise of the East. It is already a manufacturing metropolis, and a fit cradle for the gigantic enterprises which the people of the valley have in view.

Velvets.....

They are booked as favorites again this season. Fashion appreciates the soft richness and refined elegance of velvet so it is sent to the front. To know you want it is a signal for us to have a complete assortment of desirable colors in qualities that can be counted upon to give satisfaction. If you consider our prices too low, remember we are behind them and the velvet is all right.

Nineteen-Inch Colored Velvet in any of the season's popular shades \$1.

Panne Velvets, all shades, \$2.

Rich, deep pile Black Velvet \$1 to \$2.50.

Corduroys

It is hard to tell the cotton corduroys of to-day from the silk and for wraps, dresses and trimmings they offer an easily-bought elegance that is constantly widening their circle of friends. Manchester, England, is the home of corduroy and the Boulevard Brand is the maker's highest triumph—it makes the perfection of corduroy. Full rich dyeing in an even heavy pile, with widely-spaced cords go to make up its beauty. And while it has proved its goodness through several seasons each year it betters. Black, cream and colors.

What a Change Has Come Over the Ledger Scribe's Dreams.

Didn't Know Near As Much As He Imagined About Election of School Trustees.

The Public Ledger a few short weeks ago contained a very exhaustive, if not learned, article on the law governing the election of members of the Board of Education. Here's his introduction in the way of headlines:

THE "BULLETIN'S" LAW.

The Old Lady Is Off Her Nest Again Some More.

NO SCHOOL ELECTION NEXT MONTH.

And here are some extracts from his exhaustive article:

For the enlightenment of THE BULLETIN scribe we beg to state that the section above referred to—It being Section 148—is not the stumbling block in the way of an election, although there are powerful large ones in the way. We read with overwhelming amusement the contention of THE BULLETIN scribe that Section 152 of the Constitution applied to school elections in cities of the fourth class. Section 152 is the one THE BULLETIN quotes to the effect that "if a vacancy occurs three months before the next general election, it shall be filled at the election." We do not impeach the construction placed upon either Section 148 or 152 of the Constitution, for the very simple reason that neither of those sections have anything whatever to do with the election of members of the Board of Education in cities of the fourth class. We are really surprised that THE BULLETIN scribe, who has shown so much zeal in research into the Kentucky Constitution, should have wholly overlooked Section 155 of that instrument, which section distinctly eliminates the two sections quoted by him from all bearing upon school elections.

So that Sections 148 and 152, being included in Sections 145 to 154, inclusive, it follows like the night day that Sections 148 and 152 "shall not apply to the election of School Trustees;" and the learned constitutional scribe could have saved his labor expended in finding three decisions of the Court of Appeals which hold that Section 152 applied to "offices of towns and cities," and that "an election to fill a vacancy in a city office may be held at the time of a Congressional election."

Unfortunately for the scribe's logic, members

of the Board of Education are not "city officers" under the terms of the Constitution, but are simply School Trustees of a common school district.

Now, then, if Sections 148 and 152 do not apply to the election of School Trustees, and since Maysville is a city of the fourth class, and therefore one common school district, and it having been decided in 19 Kentucky Law Reporter that the members of the Board are but Trustees, it follows that said sections are wholly eliminated in the consideration of the question as to whether or not the vacancies mentioned should or should not be filled at this fall's election.

From this section we find that members of the Board of Education are to be elected at the general election every two years, and then but one trustee from each ward is to be elected.

The succeeding section provides for the filling of all vacancies until such general election, which means the general election every two years; and since it has only been one year since that general election was held, THE BULLETIN scribe will have to possess himself in patience and wait another year before he can have the much coveted election.

Without further comment we now reproduce the following from yesterday's issue of the Ledger, which is sufficient evidence to show the learned editor of that paper, though he is a member of the Board, doesn't know as much as he imagined he did about the law governing the election of members of the Board:

BOARD OF EDUCATION.

Three Members to Be Elected in the City Next Tuesday.

After much controversy it has been decided to hold an election Tuesday to fill three vacancies in the Board of Education.

The vacancies are in the First, Fourth and Sixth wards; and the candidates announced for the places are—

First Ward—Harry Taylor and I. M. Lane.
Fourth Ward—James A. Egnew and Robert Ficklin.
Sixth Ward—Sherman Arn and E. H. Bryant.

Let Republicans Answer.

[Flemingsburg Times-Democrat.]

Judge Paynter put forward a little mathematical problem in his talk Monday which was about like this: If W. G. Dearing could not serve a four-year term in an office, to which he was elected as a Democrat, without betraying his party, then should he be elected by the Republicans to an eight-year Judgeship, how many years of that term would he serve out before betraying them? Let our Republican mathematicians figure on it.

Before Buying Your Fall Suit or Overcoat

MISS FAY LEE,

President of the Shakespearean Club, Kansas City.

"Your booklet came to my home like a message of health when I had suffered with headache, backache and bearing-down pains. I was weak, nervous and hysterical and had not consulted any doctor, thinking it would pass away in time, but instead I found that the pains increased and were more frequent. I decided to try Wine of Cardui and in a short time was much improved. It seemed to act like a charm. I kept up the treatment and the result was most satisfactory. Words fail to express my gratitude for the suffering that is now saved me. I am in fine health, physically and mentally. I can only say 'thank you', but there is much more in my heart for you."

Miss Fay Lee.

BEARING-DOWN pains are the worst that women know. If you are suffering from this trouble you need not be uncertain about it. The pains in the abdomen and back that feel as if heavy weights were pulling down on the nerves of the stomach are "bearing-down pains." They may not be particularly severe at present but they are growing worse. That headache which nearly drives you distracted now is caused by the terrible

nervous tension. The nerves soon begin to give way under the strain. You perhaps jump at any unusual disturbance, or laugh or weep, hysterically, at no apparent cause. That is what Miss Fay Lee, 603 1/2 North Seventh Street, Kansas City, Kansas, was coming to when she rescued herself by taking Wine of Cardui. The Wine made her a strong, healthy woman again, as it has made a million other women strong and healthy. By inducing regular menstruation the entire system is relieved of the terrible wasting drains. The ligaments which hold the womb in place are strengthened by a healthy flow and that organ is returned to its normal position. Returning health is the result. This is what Wine of Cardui has done for thousands of the best women in America.

If you need advice write 'The Ladies' Advisory Department, The Chattanooga Medicine Company, Chattanooga, Tenn., describing all your symptoms freely, and a letter of advice will be sent you. Secure a \$1.00 bottle of Wine of Cardui from your druggist to-day.

INDIANA GHOULS.

That Indianapolis Gang Tried to Arrange for Some of Their Nefarious Work at This Place.

Indianapolis is astounded at the developments following the arrest of members of the gang of ghouls who have been robbing the graves of that city and surrounding towns to supply the medical colleges with "material" for the students to work on.

Developments go to show that the ghouls did not limit their nefarious operations to Indiana cities. A well-known colored man of this city, whose name is withheld, is authority for the statement that an agent of the Indianapolis gang visited Maysville some weeks ago and tried to arrange for the robbery of graves in our cemeteries, and the shipment of the bodies to Indiana. The agent stopped at the Central Hotel while here. Whether he approached more than the negro referred to is not known. The colored man declined to consider the proposition, and the fellow went his way.

Maysville's new Indian Band will furnish music for the Democratic speaking to-night.

MANY Maysville Republicans are going to vote for Jim Kehoe next Tuesday, simply to show their appreciation of his splendid work in the interest of the city and county.

There will be no preaching at the Washington Methodist Church to-morrow, the pastor Rev. J. J. Dickey having been called to Carlisle by the critical illness of his sister.

Democratic inspectors throughout the city and county will confer a favor by telephoning the official figures to the BULLETIN just as soon as the count is completed next Tuesday evening.

Christian Church—Preaching to-morrow 10:45 a. m. and 7 p. m. by the minister Rev. R. E. Moss. Sunday school at 9:30 a. m. and Endeavor service at 8:15 p. m. A cordial welcome awaits the public at all these services.

The Frank Owens Hardware Company will give a cloth-bound Gem-chopper Cook Book, containing two hundred valuable recipes, with each chopper sold hereafter. The work is entirely new and contains much that has never appeared in a similar publication. Every housekeeper should have a Gem chopper.

GETS THERE.

No Preambles and Preliminaries About Kehoe's Work.

Always Ready and Seldom Fails to Land What He Goes After.

[Kentucky Democrat.]

Ex-Congressman Pugh said during his last campaign that it took him two years in Congress to learn where to hang his hat, two years more to find his way to the committee rooms and his last two years to get well enough acquainted with the machinery to know how to accomplish anything for his constituents.

The people promptly decided that he was too slow, and gave Mr. Kehoe a trial.

It took Kehoe less than two minutes to find the hat rack, two minutes more to inquire about the committee rooms, and in two hours he was doing business. There are no long preliminaries and preambles with his work. He is always ready and goes right straight after whatever is before him, and he very seldom fails to land it. This is the kind of man to have in Congress, one who can accomplish things.

Kehoe has done more important work in one session than any other Congressman from this district ever did in his entire service.

BOARD OF EDUCATION.

The Monthly Session Last Night a Short One—Vacancy in Fourth Ward Filled.

The Board of Education held its regular October meeting last evening, President Sallee in the chair.

The Secretary reported receipts of \$97.50 for tuition during the month.

The Treasurer's report showed receipts of \$2,123.10.

On motion, James Eknew was elected to fill the vacancy on the board from the Fourth ward until the first of January.

On motion, it was decided that the rules in regard to non-resident pupils did not apply to James Ryan. He is living temporarily with relatives on the Jersey Ridge pike.

Mr. Charles Lloyd's sale of personality this week was largely attended. Stock brought good prices, hogs selling at 8 cents a pound.

Burrell Galnee, the negro who was found on the street the first of the week in a demented condition as was thought at the time, died Thursday night at the jail, of fever. Instead of being crazy, the unfortunate man was probably simply delirious as a result of the fever.

At the First Methodist Church, South, Dr. Evans, the pastor, will preach at 11 a. m. to-morrow on "The Divine Leaven in the Church," and at 7 p. m. on "Seeking a Kingdom." At 6 p. m. the league opens and the young people are cordially invited. The seats are free, and a hearty welcome is extended to all the services.

ACCIDENTALLY SHOT.

Mr. James Ingram, of Sixth Ward, Struck in the Face by a Stray Bullet Last Night.

Mr. James Ingram, who is employed at the pulley works, was standing near the corner of Wood and Third streets, Sixth ward, shortly after dark last evening when he was struck in the face by a stray bullet. The shot was fired by some one near Pott's grocery on Forest avenue, and was probably intended to frighten away boys engaged in Hal-lowe'en pranks.

Fortunately the bullet had spent much of its force when it struck Mr. Ingram. It penetrated the upper lip and was flattened against the teeth. He is able to go about to-day.

It is expected now that the electric railway will be extended from Georgetown to Russellville by Christmas.

Reserved seats for the ladies.

"The Devil's Auction."

One of the most prominent new features of Charles H. Yale's "everlasting Devil's Auction" is a new and magnificent transformation scene, which will be presented for the first time in the twenty-first edition of this phenomenal spectacle. It is called "A Tribute to Our Country," and illustrates in a spectacular manner the notable and wonderful localities of our great country, showing the beauties of "The Garden of the Gods," Colorado, the inspiring grandeur of Niagara Falls with the rainbow mist and spray effects which are produced by a newly invented method, the Mammoth Cave of Kentucky, the Swanee River, the Liberty Bell, and other magnificent and notable scenes and epochs in our country's history. The finale of this scene is most inspiring and depicts Columbia as Queen of the world. At the Washington Wednesday, Nov. 5th. Seats on sale Monday morning at Nelson's.

The Four D's.

Charles Spurgeon once said that there were three great enemies to man—"dirt, debt and devil." He might have added one more and included dyspepsia. The evil result of this disease could hardly be exaggerated. Its effects are felt in mind and body, and are as far reaching as the effects of the curse that was laid on the Jackdaw of Rheims which was cursed in "eating and drinking and sleeping, in standing and sitting and lying." The good effects of Dr. Pierce's Golden Medical Discovery are most marked in aggravated and chronic cases of dyspepsia. It enables stomach glands to secrete the necessary quantity of digestive fluids, and this at once removes that craving or gnawing sensation so common to certain forms of indigestion. It tones and regulates the stomach, invigorates the torpid liver and gives the blood making glands keen and assimilative power. "Golden Medical Discovery" cures ninety-eight per cent of those who use it. Dr. Pierce's Pleasant Pellets are superior to all other laxative medicines when the bowels are obstructed.
